The European continent has been thrown into chaos by hordes of uninvited Muslim immigrants who are disproportionately comprised of young men who have abandoned their own women and children to seek safety for themselves. They show contempt for the indigenous population and have a psychopathic sense of self-entitlement.

Everywhere these so-called immigrants have been permitted to nest, crime rates have skyrocketed and civil chaos has followed. In countries like Sweden, Germany and France, women and children can no longer walk down once-safe streets for fear of being accosted by these violent sociopaths. Peaceful neighborhoods have become hunting grounds for gangs of predatory refugees.

Instead of protecting their citizens from these barbarians, the liberal governments of Europe and the United States are allowing the brutalization of their own populations at the politically correct altar of multiculturalism. In the masochistic liberal mindset, the defense of your own citizens from predation by foreign invaders has become an act of intolerance.

Can anyone answer the question why other Muslim countries refuse to accept these refugees who share their own faith? Take a look at Europe and the answer becomes obvious.
