When special counsel (former FBI director) Robert Mueller finds that Trump did nothing wrong, how long will it take before the Maxine Waters wing of the Democratic Party accuse Mueller of being a tool of Vladimir Putin too?

The nation is objectively better off from Trump's first day in office, unless you listen to the media, who have parsed the words of "unnamed sources" to create the illusion of wrong doing.

Is this what the Salem witch trials looked like in the 17th century? Maybe we should reinstate "spectral evidence," because without it, Democrats haven't got a shred of proof that Trump did anything illegal.

When this witch hunt is over, the only thing that will be evident is a concerted disinformation campaign against Trump by the mainstream media and the left-wing of the Democratic Party.

Another media manufactured crisis will be looming as soon as this one ends.
