### **Letter: No more freeloaders in out midst**

Posted Jan 2, 2017 at 4:12 PM

We need to develop a way to expedite the deportation of large numbers of foreign nationals who are illegally entering or maintaining residence in the U.S. The American taxpayer should not be expected to foot the bill for people who have no moral or legal right to be here.

Sanctuary cities that defy the will of the American people should be dealt with swiftly and, if need be, aggressively. The anchor baby loophole is being ruthlessly exploited by foreign nationals and no longer serves the purpose for which it was originally intended. This antiquated provision in the law needs to be eliminated.

We need to be selective in the people we grant citizenship to. They must reflect our religious, moral and constitutional values. If they don't, they have no business being granted citizenship. We are not citizens of the world, but of the United States of America. Our obligation is to our own welfare first, not the rest of the world. The days of accepting freeloaders into our midst must come to an end.

**The downfall of Sweden**

Updated Feb 6, 2017 at 7:15 PM

A long, long time ago in a galaxy far, far away there was a beautiful land filled with beautiful people. These people shone like the sun and were at peace with mankind. From the midst of this magnificent people a sinister group who called themselves "Progressives" rose to power.

With lies that were twisted to sound like the truth, these Progressives opened the gates to the peaceful kingdom so that predators could roam freely among the lambs.

Women and children could no longer walk hand-in-hand down once-safe streets, and darkness fell over a place that had been full of the sun. This once-peaceful land, which was betrayed by the Progressives, is called Sweden, and thanks to them, it is now the rape capital of Europe.

## Letter to the editor: U.S. shouldn't allow in immigrants

Posted Nov 27, 2018 at 6:04 PM

### U.S. shouldn't allow in immigrants

We've seen this poor migrant act play out before in Europe.

According to the media, these migrants are poor hapless woman and children seeking a better life.

The reality is 80 to 90 percent are young fighting age men who tactically stage woman and children at the front of the column to bear the brunt of the tear-gas.

As with the European experience, most of them will become wards of the state either dependent on welfare or in prison.

If you want your schools and neighborhoods turned into crime-ridden sewers, by all means, let them in.

Never fear because even if you don't an Activist court will force you into submission.

Resistance is futile in the Globalist order; you will be assimilated while the morally superior remain comfortably secure in gated communities protected by guards who carry guns. Protecting them from the same third-world trash that we are supposed to joyfully rub elbows with.

**Death panels are here**

Posted Oct 14, 2014 at 12:01 AM

Obamacare isn't going to call them death panels. The pattern will play out similar to the VA scandal. By limiting timely access to healthcare by using administrative delays, they are rationing healthcare. In effect, they have created death panels by allowing those most in need to die before receiving an appointment for medical treatment.

This is no longer in the realm of theory; faceless, nameless bureaucrats who sit at desks and care more about budgets and hiding mistakes will coldly, callously let you die.

What makes you think Barack Obama, who is off for a round of golf after the brutal beheading of a fellow American, will spend much time worrying about the fate of you and your family?

### **Climate fairy tale**

Posted Mar 3, 2015 at 12:01 AM

Updated Mar 3, 2015 at 10:00 PM

Global warming/climate change is based on conventional wisdom, not science. It has become a left-wing slogan to rally the simple-minded.

As we can see, the simpler the minds, the more they love the concept. The problem is that the facts don't back up the theory. Man-made global warming/climate change has been effectively debunked.

The "left" has become so invested in the concept that it is willing to accept a fairy tale. After all, the earth is flat, isn't it?

## Letter: Multiculturalism and crime

Posted Sep 19, 2017 at 9:19 AM

Updated Sep 19, 2017 at 9:19 AM

From chaos comes order, except if you live in England, Germany, France or a host of other Western European countries who have fallen victim to the progressive myth that by populating your country with semi-civilized refugees with whom you have nothing in common is a good idea.

This utopian fallacy has driven peaceful Europe to the brink of chaos. Like most progressive disinformation, multiculturalism is a product of self-hating indoctrination based on a variation of “white guilt.”

Poland, Hungary, Romania, and other Eastern bloc countries like most Muslim countries have restricted the influx of predominantly Muslim refugees. The result being healthy ethnic cohesion and century’s old cultural stability, minus the terrorism and high crime rates fostered by the virulent multiculturalism of Western Europe.

The sad fact is that mass immigration over the past several decades has led to social and economic disintegration of the host countries as it has for states like California.

## **Letter: Islam is not peaceful**

Posted Nov 15, 2017 at 3:13 PM

Updated Nov 15, 2017 at 3:13 PM

Islam has demonstrated that it is not a religion of peace or tolerance. While most religions of the world have matured large segments of Islam have receded into a barbaric dark age where any crime, from mass murder to pedophilia can be justified by yelling the phrase “Allahu akbar.”

Coexistence is a cover for the ultimate subjugation of other cultures whose only choice will be to convert or be driven to extinction. Assimilation has never been an objective of Islam.

Not all Muslims are the same, but a substantial segment of the Muslim population are jihadist or jihadi sympathizers which means a small number of these zealots are capable of disrupting the entire fabric of western civilization.

Are we going to stand up for our values or are we going to surrender to a culture of religious zealots who consider the murder of infidels to be a free ticket to heaven?

## **Muslim migrants just don't behave like our Mennonites**

Posted Jun 11, 2018 at 6:36 PM

Updated Jun 11, 2018 at 6:36 PM

If Muslim migrants behaved like Mennonites no one would have a problem with them. In fact, they would probably be sought-after.

The problem is they don't.

They reflect the rigid intolerance of the societies they come from.

They have little regard for human life, including their own.

Never has such a religious culture believed itself to be so superior yet demonstrated the misogynistic brutishness of a third-world street gang.

The question Western societies must ask themselves: Is Muslim immigration worth the debasement of their own women and children in order to placate a subset of human beings whose ultimate objective is the destruction of every social vestige of the host country?

We also must remember that these people fled lands of competing tyrants and they were the losers.

Like most barbarians, they don't seek to change their ways, but to ply their brutality on those they consider weaker than themselves.

Is victimhood at the hands of cultural thugs the legacy you wish to leave your children?

## Letter to the editor: One party engages in bullying

Posted Oct 21, 2018 at 8:55 PM

### One party engages in bullying

If you want to look into a dark pit, a place where truth fears to tread you need to go no further than the progressive wing of the Democratic Party.

This is the party of swamp creatures like Nancy Pelosi and Maxine Waters, a place where anything goes in the pursuit of absolute power. Character assassination, ambush tactics and intimidation have become a substitute for rational political debate.

With more resemblance to "brownshirts" the youth-wing of these Soros-funded basement dwellers resort to the stalking and bullying of anyone who stands in their way and then pretend they are engaging in "freedom of speech."
